

gigant – Service and maintenance documents

With the introduction of the ALL IN ONE – maintenance and repair booklet in January 2018, gigant has created a comprehensive document for the current product portfolio. It includes:

- Warranty conditions
- Maintenance information/intervals for axles and suspensions
- Repair instructions for axles and suspensions

ALL IN ONE summarises the current product programme and their warranty, maintenance, and repair adjustments.

Additional updates are published on a regular basis. They can be identified by the consecutive version numbering: Version 01/2018.

You can also find the latest version on our homepage:
